

# TECHNICAL COMPONENTS

---

## VIDEO

- Camera: Video Camera / Phone Camera
- No Handheld : Use a solid surface to place your mobile device / camera on
- Number of people: 1 person
- Framing: In Center with some headroom
- Focus: Make sure the video is clear and in focus

## AUDIO

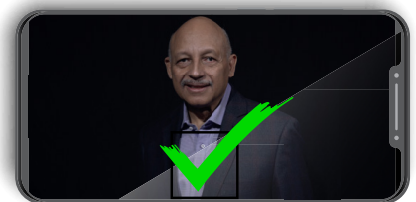

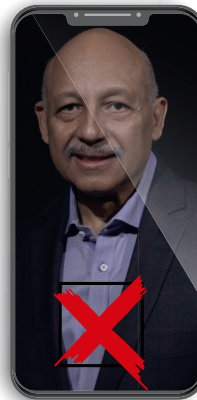

- Built-in microphone are Extremely limited.
- Get as close as possible to subject (you)
- Eliminate any background noise
- Project your voice good enough so that you can be heard clearly.

## LIGHTING

- More light, the better
- Avoid dark areas
- Shooting directly into windows or bright lights will over or under expose subject

## SHOT COMPOSITION

- Zooming is Very limited on mobile devices
- Physically move camera to fill up the frame (test it before the actual video)
- Landscape Recording Only not Portrait with Subject (You) in Center (view the image below for reference)

Record Format: Record Straight from Camera.

Editing: Don't edit, I'll handle this. I just need you to send your name/title as I'll add graphics & music in the background.
